

SONAR

Creative slide systems for breathtaking presentations.

Three directions. Same brand. Different energy.

Premium, deep, cinematic, clean.

Find the signal. Move when it matters.

Best for: sales decks, founder decks, category narrative.

Content slide pattern

One strong idea

Use one decisive headline, one supporting thought, and three proof points. No dense walls. No dashboards pretending to be strategy.

Recommended layout

Left: claim or insight

Right: evidence, steps, or visual

Bottom: short implication or CTA

Data should feel like signal, not spreadsheet.

3.8x

Higher priority on accounts with fit + movement.

42%

Less manual research when agents prepare account context.

12h

Signal-to-action window for high-intent accounts.

Use large numbers, short context, and a clear implication. Never bury the point.

White-space heavy, friendly, modern SaaS.

Clean signal. Clear action.

Best for: reports, docs, onboarding, educational presentations.

Content slide pattern

One strong idea

Use one decisive headline, one supporting thought, and three proof points. No dense walls. No dashboards pretending to be strategy.

12h

Signal-to-action window for high-intent accounts.

Use large numbers, short context, and a clear implication. Never bury the point.

Bold, kinetic, event-ready, high-energy.

The market moves. Catch the pulse.

Best for: launches, events, bold product moments, social storytelling.

Use Abyss Minimal as the master system.

It best matches the strategic position: premium, modern, focused, and distinct from noisy AI outbound brands. Use Daylight Sonar for operational clarity and Pulse Current for launch energy.
